Transport Strike

Barcelona

Autonomous transporters of the Port of Barcelona began a strike on Monday that will continue until next Friday

Therefore, our delivery and collection service in the port of Barcelona could be altered during the week.

TRANSPED works to always give you the best service so we will be very aware of your loads and we will keep you informed of the situation of each of them in case of being affected.

We hope that this situation is solved as soon as possible and as always Beckchoice Ltd are doing their utmost to ensure this will not affect your cargo.

Sincerely

Beckchoice Ltd
