

## Weather Warning

Good morning,

Felixstowe port are in receipt of a severe weather warning which is could have a very significant impact on deliveries.

We are fully expecting the port to close today around 10am and not reopen until 7 – 10 am on Wednesday. This will of course be dependent on how much damage and what issues it causes on the port with stacks of containers blown over into roadways etc. if we haven't contacted you already then your delivery should be on way but we are working our way through all deliveries for today and tomorrow to see how many of our customers may be affected.

### **Weather warning - UPDATE.**

Please be advised that we are currently in receipt of a weather warning indicating that wind speeds will exceed our safe working limits from 1000 hours on Tuesday the 24th through to 0700 hours on Wednesday the 26th of August.

As a precautionary measure, and in anticipation of some disruption to our Yard operation, we have removed all bookings for these hours and restricted availability for the preceding and following hours.

**We would urge all hauliers to avoid the Port during these times.**

Please be assured that we will endeavour to keep delays to a minimum and will return bookings as soon as conditions allow.

Your patience and understanding is appreciated.

Regards,

VBS Administration

As always Beckchoice will do our utmost to keep you updated but if your delivery hasn't arrived on time please give us a call for an update.

Sincerely

Beckchoice Ltd
