AEO accreditation

Good morning

I am pleased to announce that, after several months of hard work, HMRC have approved us as AEO accredited. This means that we are a trusted partner of HMRC and effectively confirms that our service levels, processes and procedures are, as you already know of course, of a sufficiently high standard to deliver an excellent service in all aspects of international freight forwarding, Customs clearance and logistics. ☺

Beckchoice can look after all your freight requirements, whatever the Brexit outcome, with efficiency and expertise.

Not only is AEO status a valued accomplishment in Europe, but it's also recognised globally, with more and more companies understanding that an AEO partner is invaluable to the effective handling of their logistics.

Should you have any questions regarding how this affects our relationship with you, please don't hesitate to contact Wayne Amber, our IT and Facilities Manager, at wayneamber@beckchoice.co.uk

Thanks very much for taking the time to read this.
