Extended Lock downs in Shanghai

Dear Valued Customer

8th April 2022

Good day,

We have received further updates confirming that Shanghai is subject to an extended lockdown from 5 am 8th April until 5 am 15th April.

Unfortunately, this means that all warehouses in the area are closed and cannot receive or deliver any cargo.

We can re-route any urgent shipments at your request via Ningbo since they are accepting cargoes still. There may be additional costs for this so please let us know if you will require this service.

We apologise for any delays and we hope that the warehouses can receive cargo again from 15th April.

We will update you all again as soon as we receive further news, however if you need to check on any specific routings, please do not hesitate to contact our team at Info@beckchoice.co.uk or your key account contact.

Beckchoice Ltd, as always, are here to make any necessary re-routing of cargo as easy and as effective as possible so please feel free to reach out to us with any questions you may have.

Yours sincerely

Beckchoice Ltd
